Prefabbed to Perfection: In light of the recent fires that affected our community, we are featuring a beautiful prefabricated home to inspire those who are looking to rebuild. A modular concept with steel hinges that unfold on site, this eco-focused family residence offers modern amenities and minimalist design.

Natural to the Nines: A collaboration between a well-known local architect and interior designer / owner, this newly built home perfectly captures the essence of modern rustic design. Built on a cozy lot, this home utilizes repurposed materials and creative textures to offer a stylishly serene setting.
