31st Annual Season

Reimagine. Transform. Renew.

This summer, alongside performances of your favorite pieces, we explore how music can be adapted: hear how changes in instrumentation or style can shed new light on the original and reveal hidden nuances and emotional depth. This fresh perspective breathes new life into familiar works. Both in music and life, change doesn't mean discarding the past but reframes it in a way that keeps it meaningful and relevant. New approaches reinvigorate our lives, allowing us to see both art and opportunities in a new way.

This August, experience remarkable music in the stunning backdrop of the Napa Valley — and prepare to be transformed.
